Refined Esthetics and laser

WE HAVE MISSED YOU

I hope and pray that this note finds you well and healthy during these difficult times. Social distancing and staying at home are critical to keep everyone safe and allow us to take care of the sick effectively.

As you know I have shifted all efforts to treat medical patients and respond to emergencies at the hospital during this pandemic. I am grateful to my colleagues in health care and have been overwhelmed by the kindness and appreciation of our community.

ESSENTIAL SERVICES

While I understand the definite need for essential services and that skincare is not considered as truly essential, I believe maintaining a positive outlook and complexion are important to manage our physical and mental health while we quarantine ourselves.

Many have told me how drying our Covid-19 routines and masks are to their skin but are now a necessity.

ONLINE STORE NOW AVAILABLE

I have received several requests for our skincare products. Although, the clinic remains appropriately closed at this time, we have created an online store for you to be able to purchase your skincare online and will provide a curbside pickup.

You will be able to browse for products, complete an online purchase and receive your order confirmation via email. service.
